

## **Lilla Szendrei**

plant protection engineer, PhD Student

Department of Plant Pathology  
Institute of Plant Protection

### **Degree**

Biologist- Eötvös Lóránd University  
Expert of Plant Protection- Hungarian University of Agriculture and Life Sciences

### **Contact**

E-mail: Szendrei.Lilla@phd.uni-mate.hu  
Tel.: 36-1-305-7100 (6048)  
Budai Campus  
„A” Building, II. Floor, 206. Room

### **Location**

Department of Plant Pathology  
Budai Campus  
1118 Budapest  
Villányi út 29-43.

### **Research field:**

During her research, she studies the effects of native and newly occurring pathogenic fungi on cultivated ornamental plants and their wild species, including *Ranunculus* sp., *Convallaria* sp., *Galanthus* sp., *Colchicum* sp., *Gaillardia* sp., *Gloriosa* sp., *Pleione* sp. and *Hemerocallis* sp. This involves identification of pathogenic fungi using classical and molecular methods, and the study of their relationships.
