Areas of Expertise

Integrated mite management in orchards and arable crops

Research Areas

- the role of predatory mites in orchards
- development of trunk injection
- effect of ppp-combinations to bees
- special features of acaricides

Courses Taught

- Integrated crop protection
- Identification and Forecast of Pests
- Phytophagous and predatory mites in agroecosystems

Extension

Within the framework of our professional consulting activities, we provide assistance to business partners and NGOs, as well as directly to producers in many areas of plant protection.
